

Another irrefutable proof that God exists and created all things. This proof uses the principle that the existence of an intelligently designed object proves the existence of an intelligent being that made it. And this proves that the Bible is the word of God.

The following proves that God Almighty exists and created all things.

Suppose that you had never seen a modern cell phone before or knew of its existence. You find such a device. An examination of its incredible uses and how intricately it was made would prove the existence of the intelligent maker(s) of that phone. Other intelligently designed **things** which prove the existence of the intelligent maker(s) are cars, planes, bikes, TVs, laptops, ovens, grills, dishwashers, dryers, heaters, air conditioners, houses, furniture, roads, bridges, buildings, sidewalks, chairs, books, forks, knives, spoons, mixers, bowls, plates, cups, pots, keys, doors, radios, traffic lights, boats, fishing reels, suitcases, movies, artwork, picture frames, vases, lamps, flashlights, signs, and the list goes on and on. All these prove the existence of intelligent maker(s) of these things. It is reality. If anyone does not believe this to be true, just walk around for a month, and for everyone that you meet point to these things and tell them that those things were not made by any intelligent maker. You might have to explain what you mean because they will probably not understand what you are saying. Do not in any way tell them that you are performing an experiment. Do this to family, friends, neighbors, coworkers, and strangers. The more you encounter a certain person, the more you must do this. Then report your findings and what people said.

Now consider a large modern city. There are very many cell phones in it and a huge host of other intelligently designed things and activities that make that city and its inhabitants functional. An analysis of that city proves the existence of the intelligent beings that made, run, and function in that city. This is even more sure than just the single cell phone case.

Now look at all of civilization. It consists of very many cell phones, many cities, and a multitude of other intelligently designed things. An analysis of that civilization proves the existence of the intelligent beings that made that civilization. This is even more sure than in the single city case.

Finally look at all living things in the world, including people that made that civilization and all the intelligently designed objects in it that are made by people. The intricacies of living things (DNA, RNA, proteins, enzymes, organs, reproduction, the interconnected food chain, etc.) and their irreducible mutual complexity is way beyond anything that mankind has ever made and by an enormous amount. All people have done so far is to try to understand how living things work and even now we are just scratching the surface. Furthermore, just the sheer number of living things dwarfs the number of intelligently made things by mankind. For example, it is estimated that there are over 10^{31} cells in the world, each way beyond the complexity of anything mankind has made. Thus, an examination of all living things, especially intelligent people who make things, and how they interact with the rest of the creation proves the existence of Almighty God the Creator of all things. And this surety is way beyond than even the civilization example. So, here is yet another irrefutable proof that God Almighty, the Creator exists and the He created all things. Therefore, we think and make things, so God Almighty exists. This irrefutable proof does not depend on the Bible at all. It does not assume the existence of God the Creator or that the Bible is the true word of God. So, it is not circular reasoning at all. Furthermore, the "no God" assumption can never be used in determining the origin of anything, nor the age of anything. That assumption has been proven false for all time.

It is not logical, and it is not scientific to ever use the “no God” assumption in determining the origin of anything nor the age of anything.

There are very few books that claim to be written by God the Creator of all things and only the Holy Bible proves that it is indeed the very word of God. It is a corollary to the proof that God Almighty exists and created all things. Thus, the enormity of the following statement found in the Bible should be abundantly clear to all the world, so much so, that they are indeed without excuse.

19 Because that which may be known of God is manifest in them; for God hath shewed it unto them. **20** For the invisible things of him from the creation of the world are clearly seen, being understood by the things that are made, even his eternal power and Godhead; so that they are without excuse; - Rom 1:19-20

Since this wisdom, written about 2000 years ago, comes from the word of God, it proves the Bible is the true word of God. There are many other things which also prove that the Bible is the true word of God.

Now the Bible predicted that knowledge shall be increased in the last days. But with all the great advances in biology, the passage in Romans 19-20, has not only withstood the scrutiny of science, but has been immensely verified by it.

But thou, O Daniel, shut up the words, and seal the book, even to the time of the end; many shall run to and fro, and knowledge shall be increased. - Daniel 12:4
